MERCHANTS AND BANKERS'

ALMANAC

FOR

1872.

"No expectation of forbearance or indulgence should be encouraged. Favor and benevolence are not the attributes of good banking. Strict justice, and the rigid performance of contracts, are its proper foundation."

"The revenue of the State is THE STATE; in effect, all depends upon it, whether for support or for reformation."

"Rightfully considered, no principle is more conservative than that which identifies the laborer with the capitalist."

* Panic in the Gold market, New York.

LIBERTY.—"The Pilgrim Fathers were conspicuous, above all, for their love of abstract liberty. That was the grand impulse which moved them westward. They saw at home a fettered church and a tongue-tied nation. They saw in America a free church and a free people. They felt, at home, bound to rules of action against which their conscience revolted, and dogged at every turn by the barriers of prescription, or the mandates of the despot. They knew that, in that far western land, conscience would spurn all bonds, and that action might defy all noxious rules."—*Westminster Review*, October, 1871.

MUSIC.—"Like a good physician, like a tender friend, music comes to the aid of all classes, a gentle minister of consolation—sweeping clear the sky and showing the blue beyond, making grief bearable and loss tolerable. Music soothes the fever beat of the sick man, and ministers strangely to the disordered mind when other remedies fail; it enables the soldier to accomplish forced marches and to fight battles at the end of them; it draws the bands of social and family life more closely together; it recreates the wearied professional man; it kindles new fervor in the sluggish soul; and is, moreover, ready to bear on high the inarticulate aspirations of many a toiling and careworn spirit."—*London Quarterly*, July, 1871.

LEAP-YEARS.

To ascertain any day of the week in any year of the present century, first look in the table of years for the year required, and under the months are figures which refer to the corresponding figures at the head of the columns of days below.

For Example: To know what day of the week July 4 will be in the year 1872, it being a leap-year, look in the table of leap-years for 1872, and in a parallel line under July is figure 1, which directs to column 1, in which it will be seen that July 4 will fall on Thursday.
